words

Stream graph for time-series data

All the tweets with the top words

Pie chart for word distribution of top words

Word cloud
As a user selects a stream or a word from the list...

Distribution remains the same

Center the word cloud on the selected stream

Show only tweets for that stream (with highlighting)
As a user selects point in time

Update the pie chart to show distribution at that time

Update the word cloud for that time

Show only tweets for that time
Overview

- **Word Pairs**: A table showing word pairs with their associated values and visualizations for time-series data.
- **Stream Graph**: For time-series data visualization.
- **Sunburst Graph**: To visualize word pairs.
- **Word Cloud**: For word frequency representation.
- **Analysis**: Graph Metrics, Subgraph Images, Groups, and Time-series.
